

## Ableton Looping -

### Mic/key Alternative

Note:

3/4 is Cue Output  
which can be used  
for ~~drum~~ separating  
the drum tracks, but  
is not currently done  
in the patch.

Set "Record" channels (tracks) in  
Ableton to 1/2 - Then mic will  
be left channel & keys right.

Adjust Mixer in Cue-Mix To  
feed through proper amounts of monitor  
for channels 1 and 2
